Beads 62035 or DMC 760, 62041 or DMC 744, 62046 or DMC 932 **Metallic Thread** 282Z

Special Notes

1. Read Special Instructions on page 3.
2. French knots: use one strand of floss and wrap the needle once.
3. Wavy lines on charts indicate regular backstitch in a different color.
4. Metallic Thread - use 1 strand (3 ply do not separate) for cross stitch and backstitch.
5. Check with your local needlework shop for supplies. If you cannot find supplies, contact Designs by Gloria & Pat, Inc.

Model Information

All models were stitched on 14 ct. Antique White Aida using 2 strands for cross stitch and 1 strand for backstitch. If ethnic colors are used 3 strands may be required in the hair only, with 1 strand for backstitch.

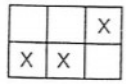
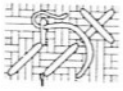
CROSS STITCH INSTRUCTIONS

FULL CROSS STITCH

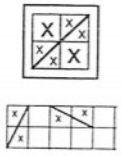
Be sure that all of your stitches lie in the same direction. Bottom stitches should lie from bottom left to upper right and top stitches from bottom right to upper left. Work the stitches from the bottom to the top of the stitch, from left to right, then cross them as you work from right to left, still coming up at the bottom of each stitch and going down at the top.

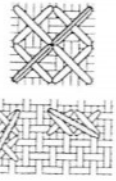




SYMBOL WITH BACKSTITCH

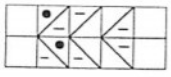
When there is a backstitch over one or two squares and the symbol is the same on either side of the backstitch, make a full cross stitch in that square. Add the backstitch last in the color indicated in the instructions.



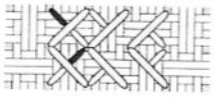


1/4 STITCH

1/4 stitches on your chart:



1/4 stitches on fabric:



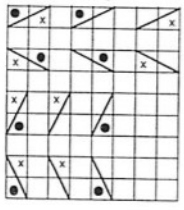
Helpful Hints:

1. Stitch from corner to center using the color indicated by the symbol.
2. Backstitch last in the color indicated in the instructions.

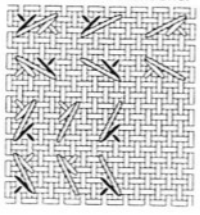
Special Note: If there are *NO* backstitch instructions given, stitch the backstitch line in the color most predominant in that area of the design.

3/4 STITCH

3/4 stitches on your chart:



3/4 stitches on the fabric:

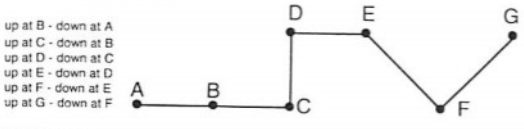


Helpful Hints:

1. Add the backstitch last in the color indicated in the instructions.
2. If the symbols are different on either side of the backstitch or there is a symbol on just one side of the backstitch, this will indicate that 3/4 stitches should be used in the color indicated by the symbol as shown above.

BACKSTITCHING INSTRUCTIONS

Backstitching (BS) is a part of some designs as outline or as lettering. The purpose of the backstitch is to form a continuous line with each stitch touching. It may travel in any direction.



FRENCH KNOT

Use one strand of floss and bring the needle up where indicated on the chart by a dot where the chart lines intersect. Wrap the needle 1 time with the floss. Hold the floss tightly as you insert the needle back into the fabric near the same place. Pull through to form a small knot on top of the fabric.

SPECIAL LINEN INSTRUCTIONS

© Copyright Ginnie Thompson

YOU WILL LOVE WORKING ON LINEN! In the natural progression of cross stitching, you may have begun on an evenweave cotton fabric where one "square" on the cloth was equal to one stitch. A first project may have been a tiny flower or heart. Next, most stitchers experience a period in which sayings are popular, each done with a particular person in mind. Then, we go on to projects both useful and beautiful; pillows, clothing accents, birth and wedding samplers, etc.

Then--LINEN! This is the stuff heirlooms are made of. Linen is durable; it has a strength that will outlast cotton. It allows greater flexibility of design. It launders and becomes more beautiful each time. And it is the best; elegant and traditional.

TIPS FOR STITCHING ON LINEN

RAVELING

Use one strand of a light color to whip the edges of the fabric to prevent raveling.

HOOPLESS STITCHING

Cross stitch on linen does not require an embroidery hoop. Instead, the hand is held in a relaxed position with the thumb and forefinger grasping the cloth and the little finger anchoring it (see fig. 1). On a tiny piece of fabric, it may be necessary to anchor with the ring finger. However, do not sew with the fabric wrapped over one finger--this may distort the stitches.

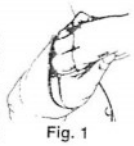

Fig. 1

KNOTLESS WASTE KNOT

Start with a knotless waste knot. This means to leave the tail of the thread on top of the fabric, up and out of the way (as in fig. 2). When the thread is finished, work it under stitches on the back, either in the direction of the stitches or vertically. Then rethread the original tail and work it under stitches on the back in the same way.

Fig. 2

THE FIRST STITCH

The first stitch and all subsequent regular stitches should begin at a VERTICAL thread. Why? The vertical threads (shown as shaded in fig. 3) act as little goal posts holding up the understitch. At the intersection where the vertical thread lays on top of the horizontal thread, start at the lower left hole. Starting at a vertical thread acts as an early warning system, also. Should a regular stitch suddenly begin at a horizontal thread, it is a sign that threads have been counted incorrectly.

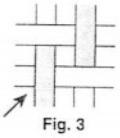

Fig. 3

SEWING MOTION

A sewing stitch, one scooping movement in and out, is used with linen (see fig. 4). Stitches should be neither loose and sloppy nor so tight that the spaces between the linen threads are enlarged. If light can be seen across the top of a row of stitches, the tension is too tight. Correct tension results in flat stitches that do not distort the background weave.

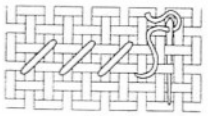

Fig. 4

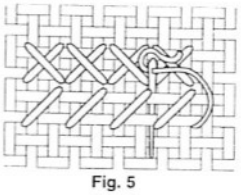

Fig. 5

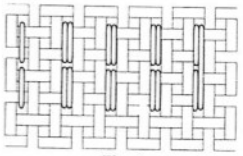

Fig. 6

Do the bottom stitches first, then cross back (see fig. 5). The reverse side will be vertical lines (fig. 6).

180 DEGREES

It is very helpful sometimes to turn your work upside down (180 degrees), turning the chart as well, but never turn the work only halfway around (90 degrees). This causes the direction of the top stitch to change, disrupting the texture of the finished piece.

LAUNDERING

Launder your needlework only if it has become soiled. If it is clean, lay it face down on a terry cloth towel on the ironing board and wet it with a sprayer or a damp cloth, then iron dry. This allows the linen to shrink slightly, making the stitches stand up beautifully. If soap is required, hand wash with mild soap in cold water. Rinse thoroughly, handling the fabric gently; roll it in a towel and gently squeeze out excess moisture, then iron dry face down on a terry cloth towel.

MOUNTING

Mount your finished needlework as you would mount cotton fabrics. You'll discover as you explore the world of linen stitching that linen is extremely versatile and can be finished in a variety of ways other than framing.

Beads

⅄	62041	Yellow (744)
⊃	62035	Pink (760)
▽	62046	Blue (932)

How to Add Beads: Add beads to your project after all other stitching and any necessary laundering is done. A #28 Tapestry needle or a beading needle is required. Use the loop method to anchor one doubled strand of floss on the back of the project. Bring the needle up where indicated on the chart by the symbol for beads and pass through the bead (Fig. 1). Pass through the fabric and then, if this is the beginning of a new thread, through the loop to anchor the thread. Next, bring the needle up as if to cross a stitch, but let the two strands separate to pass on either side of the bead (Fig. 2). An easy way to do this is to put the point of the needle between the strands, then into the fabric. Omit the step illustrated in Fig. 2 if adding petite beads and use a #28 Tapestry needle or a beading needle.

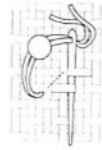

Fig. 1

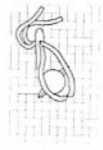

Fig. 2

LOOP METHOD: (To use any time an even number of floss strands is called for - 2, 4, or 6.) When two strands are required, take one stand 30" long and fold it in half. Put both ends through the needle, and make the first half of your stitch. Go back through the fabric and through the loop. Pull to anchor the floss securely.
